

# 2Travel User Manual

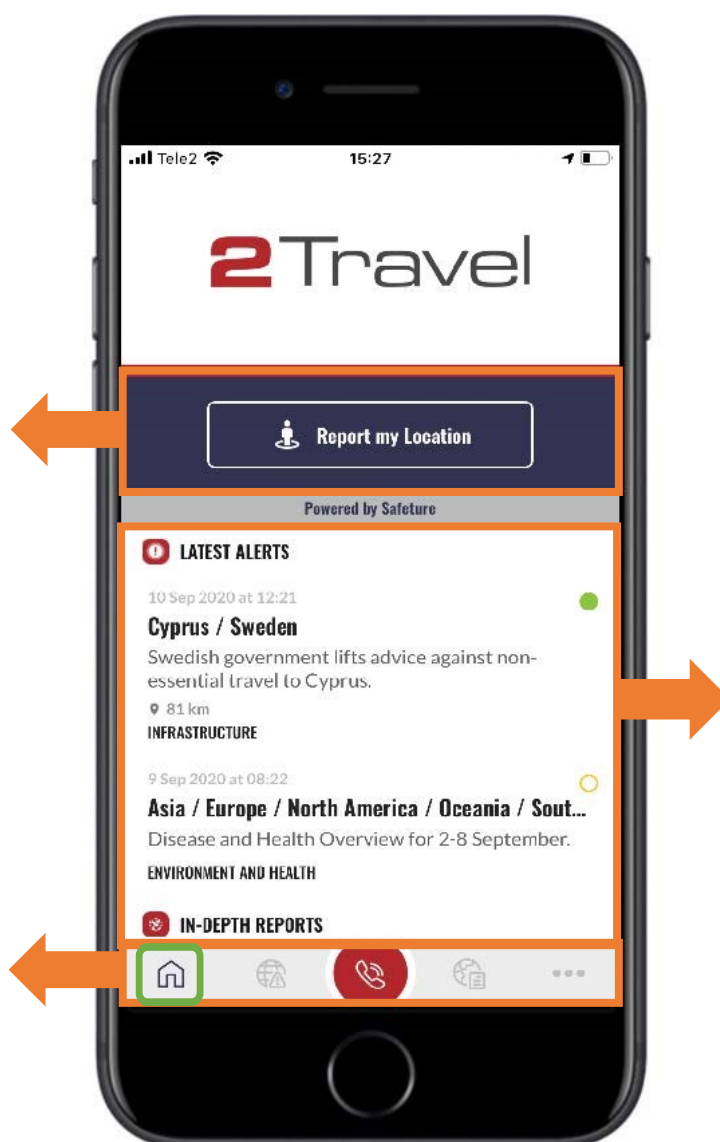

## Home

Through the Home screen you have access to the most current information relevant to you as well as the option to manually report your location.

**Report my location**  
Used to manually report current location

**Navigation bar**

- Home screen
- Alerts
- Country information
- Options

### Feed

- Latest alerts relevant to your location
- In-depth reports
- Upcoming travel bookings

## Alerts

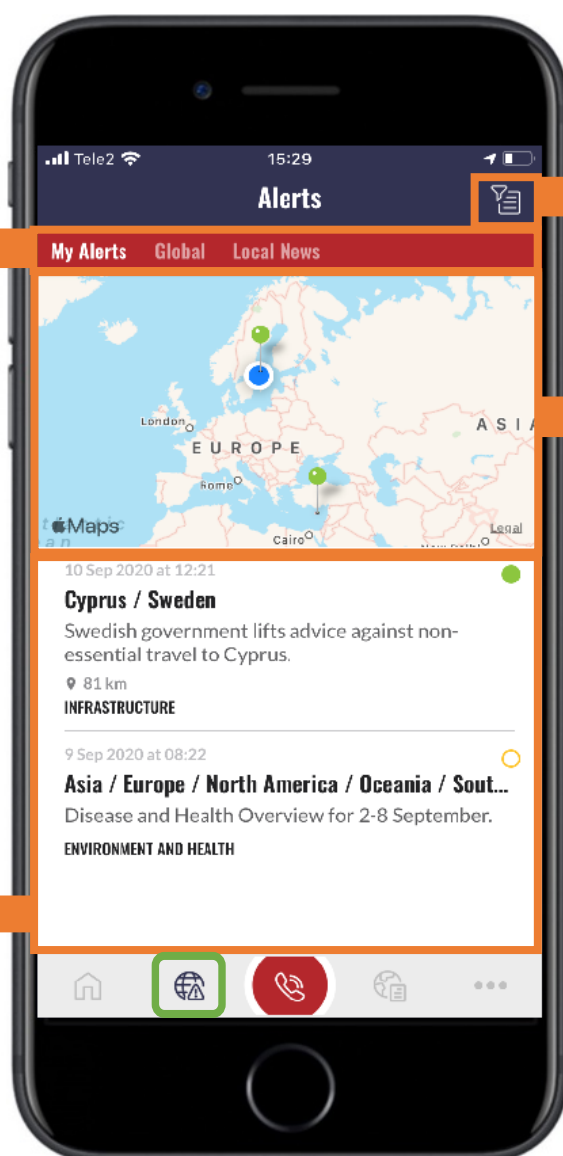

The Alerts screen gives you a comprehensive view of recent incidents, both local and global. Through this screen you also have access to local news.

### Alerts menu

- **My Alerts**  
Shows local alerts
- **Global**  
Shows worldwide alerts
- **Local News**  
Shows an assortment of local news

### Alert feed

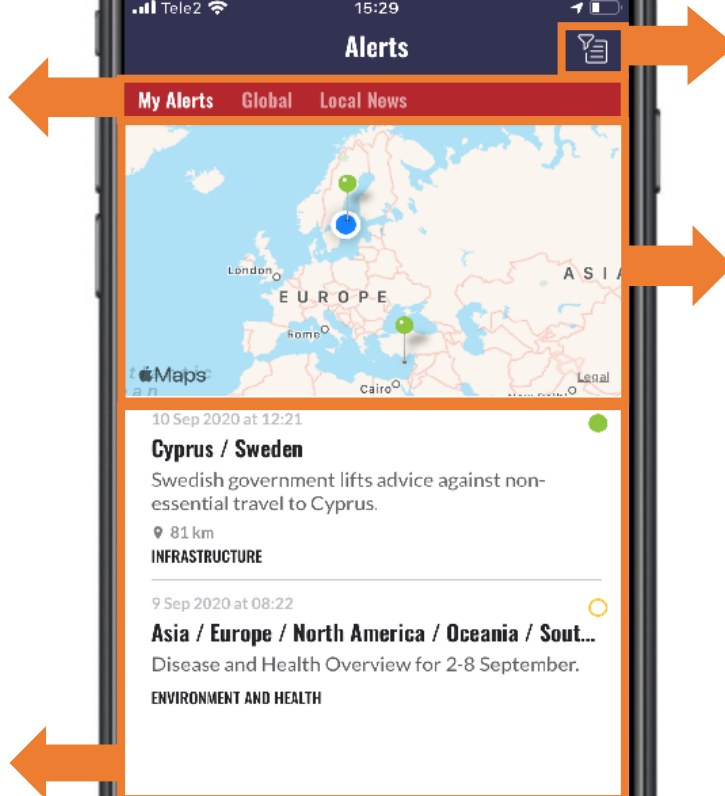

Recent alerts.  
Alerts are color-coded to indicate threat level

### Filter options

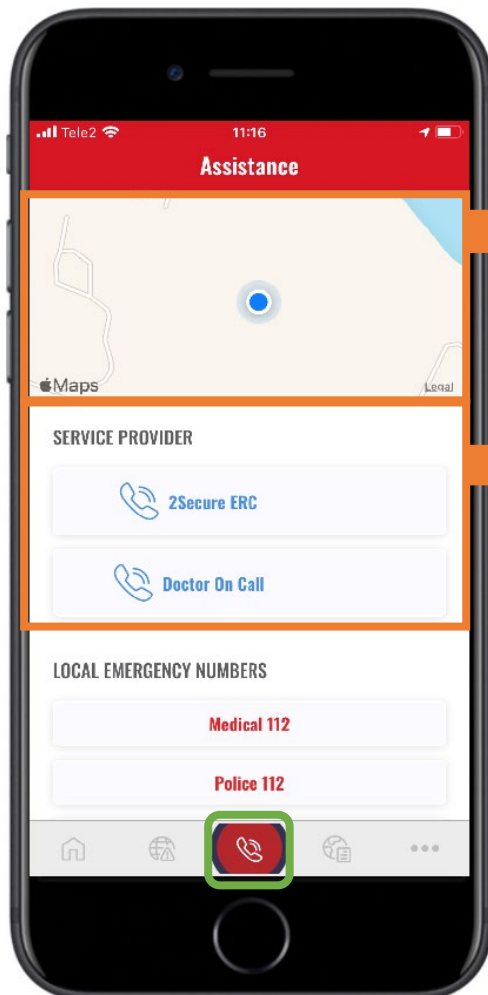

Change filter for alerts based on threat level

### Map of recent alerts

## Emergency Assistance

The Emergency Assistance screen gathers crucial information and functionality in one screen in case of an emergency.

**Map of current location**

### Service Provider

Contract-specific assistance numbers.

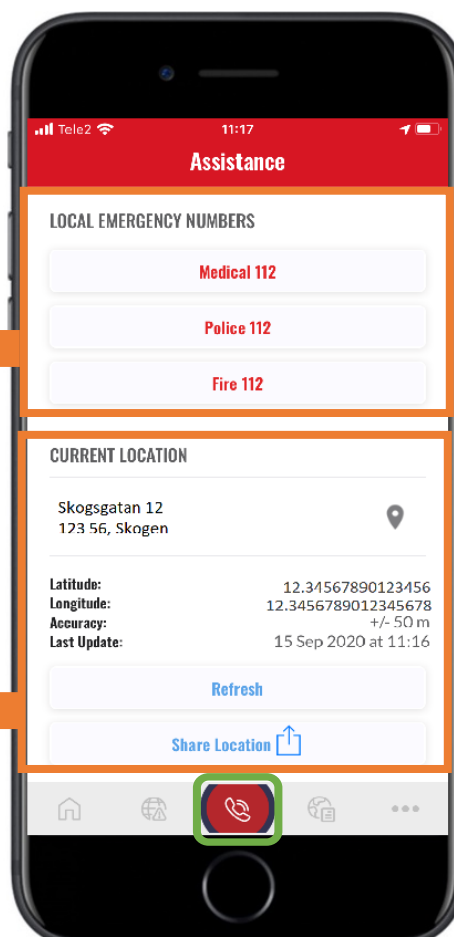

*When calling the emergency number, 2Secure's Emergency Response Center (ERC) is notified of an emergency and provided with the user's exact location.*

### Local Emergency Numbers

Displays the local emergency numbers, based on GPS-positioning

### Current Location

Displays the users current location as both an address and coordinates

## Country Information

The Country Information screen gives you in-depth information on individual countries. This information is broken down into seven separate categories, seen under the country-specific menu.

### Country-specific menu

- **Overview**
- **Alerts**  
Country-specific alerts
- **Safety**  
Country-specific threat assessments
- **Travel**  
Country-specific travel information, such as passports, visas, air travel etc.
- **Culture**  
Overview of country-specific information on society and culture
- **Medical**  
Country-specific information on health related information such as quality of medical facilities and required vaccinations
- **Local News**

**Country selector**  
Choose which country to display, default option is current location

## Additional functions

Besides the four main screens, the 2Travel app has several additional functions. These can be found by pressing the three dots in the navigation bar.
